

Biteperk Privacy Policy

For Biteperk websites, venue relationships and direct Biteperk processing

Version 2.1 | Effective 27 August 2026

This Privacy Policy explains how Biteperk handles personal information when Biteperk acts as a controller / APP entity or otherwise determines why information is processed. Where a restaurant or venue determines the purpose of caller and booking/order processing and Biteperk processes that information on the venue's behalf, the venue is primarily responsible for its caller privacy notice and Biteperk acts under the applicable Data Processing Addendum.

1. Who we are

United Kingdom: Biteperk Ltd, company number 17379647, incorporated in England and Wales, with registered office at 124 City Road, London, England, EC1V 2NX. Contact: sales@biteperk.com.

Australia: Biteperk Pty Ltd, ACN 700 831 303 / ABN 36 700 831 303, of Level 1/457-459 Elizabeth Street, Surry Hills NSW 2010, Australia. Contact: hello@biteperk.com.au. Telephone: +61 2 5504 1140.

The Biteperk entity responsible for a particular interaction normally depends on the website region, Customer Territory and service relationship. The entities may support one another and use common technology, subject to applicable transfer requirements.

2. Information we collect

- Website enquiries: name, work email, venue/business name, message and campaign/referral information attached to the enquiry.
- Venue and business contacts: name, job title, work contact details, billing/account information, support communications and commercial relationship records.
- Service setup information: venue details, opening hours, menus, booking/order rules, escalation contacts and other configuration information supplied by the venue.
- Website/device data: limited technical information necessary for security and operation; analytics/marketing data only as described in the Cookie Policy and according to applicable consent choices.
- Caller data: where Biteperk acts on a venue's behalf, the Services may process caller telephone number, audio, transcript, booking/order details, name, party size, time, menu items and special requests. The venue is ordinarily responsible for the purpose/lawful basis of that processing.

3. How and why we use information

Purpose	Typical UK lawful basis / Australian purpose
Respond to business enquiries and arrange demos/pilots	Legitimate interests in responding to requested B2B enquiries; in Australia, reasonably necessary business communications.
Create/administer customer accounts and contracts	Contract performance / steps requested before contract;

Purpose	Typical UK lawful basis / Australian purpose
	legitimate interests for business-contact administration.
Billing, accounting and legal records	Contract, legal obligation and legitimate interests in financial administration and claims.
Security, fraud prevention and service integrity	Legitimate interests in protecting systems, customers and users; compliance with security obligations.
Product/service communications to existing business contacts	Legitimate interests where permitted, or consent where required by electronic-marketing rules; opt-out provided.
Marketing tags / non-essential tracking	Consent where required; see Cookie Policy.
Comply with law and regulator requests	Legal obligation or other applicable statutory authority.

4. Caller and venue data processed for restaurants

When a venue uses VoxTable, the venue ordinarily determines why caller and reservation/order information is collected and how it is used for its hospitality operations. Biteperk processes that information to deliver the configured Services under the venue's instructions. Requests about a specific booking/order or venue call may therefore need to be handled with or through the venue.

5. AI and automated processing

VoxTable uses automated systems to understand calls, check venue-configured availability/rules and create or update routine bookings/orders. Callers are told they are interacting with an AI assistant and can be routed to a person where the configured service supports handover. Biteperk does not use caller conversations to build advertising profiles, does not create voiceprints for biometric identification, and does not use identifiable caller data to train general-purpose AI models.

As at the Effective Date, VoxTable is not designed to make decisions that could reasonably be expected to significantly affect an individual's legal rights or similarly significant interests. We will update this Policy if the nature of automated decision-making materially changes.

6. Sharing and subprocessors

We disclose personal information only where reasonably necessary for the purposes described above. Core VoxTable service providers currently include Google Cloud for hosted application infrastructure and data services, Twilio for telephony, call routing, telephone numbers and operational messaging where enabled, and Retell AI for real-time conversational voice AI, speech processing and related call processing. We may also disclose information to another Biteperk group entity where required to operate the service; to a venue where the information concerns that venue's caller/booking/order; to professional advisers and security/support providers where necessary; and where required by law or in connection with a corporate transaction subject to appropriate safeguards.

The current categories and processing locations for service providers are described in the VoxTable Subprocessor Register. Marketing-platform processing is described separately in the Cookie Policy and may involve providers acting as independent controllers.

7. International transfers

UK: some Biteperk services and providers may process UK Personal Data outside the UK, including in Australia or the United States. Where a restricted transfer occurs and no adequacy regulation applies, Biteperk uses an appropriate transfer mechanism and completes the applicable transfer assessment/data-protection test.

Australia: where Biteperk Pty Ltd discloses Personal Information to an overseas recipient, it takes reasonable steps appropriate to APP 8 to ensure the recipient handles the information consistently with applicable APP requirements, subject to statutory exceptions. Real-time voice AI processing may occur in the United States; Australian booking/order and call-summary records are hosted in Australia under the standard Australian deployment.

8. Retention

We retain personal information only for as long as reasonably necessary for the relevant purpose, contractual/legal requirements, dispute handling and security. Standard VoxTable retention is described in the Data Retention & Deletion Policy. Under the standard Australian configuration, call recordings and transcripts are deleted after 30 days unless a venue selects a permitted longer period of up to 90 days.

9. Security

We use technical and organisational measures appropriate to risk, including encrypted transport, protection of supported stored data, least-privilege access, multi-factor authentication for administrative access where supported, logging/monitoring, vulnerability management, supplier controls and incident-response procedures. No internet service can be guaranteed completely secure.

10. Your rights - United Kingdom

Subject to applicable conditions and exemptions, UK individuals may have rights to access, rectification, erasure, restriction, portability and objection, and rights relating to certain solely automated decisions. Where processing relies on consent, consent may be withdrawn without affecting prior lawful processing. Requests may be sent to sales@biteperk.com. You also have the right to complain to the Information Commissioner's Office (ICO).

11. Your rights and complaints - Australia

Australian individuals may request access to and correction of Personal Information held by Biteperk and may raise a privacy complaint. Requests and complaints may be sent to hello@biteperk.com.au. We aim to acknowledge complaints promptly and respond within a reasonable period. If you are not satisfied, you may complain to the Office of the Australian Information Commissioner (OAIC).

12. Children

Biteperk's websites and business services are intended for businesses and hospitality operations, not for children. VoxTable may incidentally handle information provided by a caller about a minor in connection with a booking/order; venues should avoid collecting unnecessary information about children.

13. Changes

We may update this Policy to reflect changes in law, products, providers or processing. Material changes will be identified by a new effective date and, where appropriate, additional notice.

14. Contact

UK: Biteperk Ltd, 124 City Road, London, England, EC1V 2NX | sales@biteperk.com.

Australia: Biteperk Pty Ltd, Level 1/457-459 Elizabeth Street, Surry Hills NSW 2010 | hello@biteperk.com.au | +61 2 5504 1140.
